# Why *sponsor* a client?

We all go through difficult times in our lives, experiencing emotional challenges and time when peace seems to elude us. By supporting those less able to afford counselling in our community you are helping families and individuals (both adults and children) overcome and reach their full potential.

The counsellors are Christians who are professionally qualified and members of professional counselling organisations who are bound by strict confidentiality.

They follow guidelines of the Christian Counselling Association, including professional supervision requirements.

The counsellors will always respect the clients' beliefs and opinions regardless of status, religion or culture.

All Counsellors have regular police checks, a "Working with Childrens" card from the Department of Justice and are member of Professional Associations.
